

24.08.2023

Rep.No.06 of 2023-24

Suo Motu advanced to this day.

Since the video link supplied by the APEPDCL which was being availed till recently, suddenly failed to support the system and the network administrator of APEPDCL yesterday stated that Windows 10 could only support the link being supplied by them and as such, yesterday hearing could not be taken place and as such the parties were directed to be physically present on the next adjournment date. But the VO's laptop supported the link furnished by the APEPDCL and as such instead of driving the parties all the way from their respective places, the hearing can be taken up on video conference. Therefore the hearing on 31.8.2023 at 11 AM as scheduled can be taken up on video conference instead of physical hearing. PS to inform the parties over phone and also by mail as to this modification.

Call on 31.8.2023 11 AM VC
